# Lasi un izkrāso!

Spoži spīd dzeltena saule. Tuvojas negaiss, liels mākonis ir tumši zils. Mazais mākonis ir gaiši zils. Lecošais delfīns ir pelēkā krāsā. Sauļošanās krēsls ir sarkanā krāsā, bet saulesargs ir krāsains. Lielajai palmai ir tumši zaļas lapas un mazajai gaiši zaļas. Smiltis pludmalē ir gaiši dzeltenas. Annai ir rozā kleitiņa, Jurim zils krekliņš un zaļi šorti. Annas peldriņķis ir dzeltens. Jura spainītis ir oranžs, un lāpstīņa zaļa.
